### TECHNICAL SKILLS

Experienced **Lighting Cameraman/ Editor and Photographer**. As **Videographer**, I have experience in Video Editing and Motion Graphics with After Effects  
Capturing video and photo using special equipment has always been my interest and I've built my own capture equipment, such as: RC blimp, Drones, Motorized Slider, Handheld Gimbal, Cablecam, Autonomous Mapping Airplanes, RC Boats,...

As **Photographer**, I have an extensive area of interest and experience: from News Reporter to Panoramic and 360° photos. **Aerial Imagery** is a passion of mine and because I started in this area many years ago, I have the expertise needed to build a drone from the **3D design** to the production in **3D print**. I'm a **Drone Pilot** with 7 years experience. I use 4K video cameras and HD live feed.

### EDUCATION

- Onshape 3D Workshop
- Arduino Workshop
- 3D Printer Workshop
- University Lusófona Humanities and Technologies
- Workshop Steadicam
- DOP Workshop
- Training Developer
- Business Management
- Course of Camera Operator and Video Editor
- Course of Photography
